ULHAS SURESH RANE

Senior Configuration Manager | Loyalty SaaS | Product Operations

Bangalore, India linkedin.com/in/ulhasrane

PROFESSIONAL SUMMARY

Results-driven Senior Configuration Manager with 15+ years of experience delivering enterprise-grade loyalty programs and CRM solutions on SaaS platforms. Deep expertise in loyalty program configuration, campaign orchestration, CMS management, REST API integration, and UAT leadership. Proven ability to translate complex business requirements into scalable technical configurations that drive customer engagement and retention. Early adopter of Generative AI tools (ChatGPT, Claude, Gemini) to optimize documentation, automate workflows, and accelerate troubleshooting across cross-functional teams.

CORE COMPETENCIES

Technical: Loyalty Program Configuration • Campaign Orchestration • CMS Management • REST API Integration • Postman / cURL • Microservices Validation • UAT Leadership • Production Deployment

Platforms: Capillary Loyalty Platform • CMS Platforms • JIRA • Agile / Scrum • ChatGPT • Claude • Gemini • Prompt Engineering

Functional: Stakeholder Management • Root Cause Analysis • Customer Success • Enterprise Onboarding • Process Optimization • Technical Documentation • QBR Delivery

KEY ACHIEVEMENTS

- Spearheaded configuration and launch of 10+ enterprise loyalty programs across retail, FMCG, and fashion verticals, directly impacting customer retention and brand engagement at scale.
- Reduced production incidents through rigorous pre-deployment API and microservice validation protocols, improving release stability across mobile and web loyalty platforms.
- Introduced AI-assisted documentation and test case generation workflows using ChatGPT and Claude, reducing documentation effort by ~40% and accelerating cross-team knowledge transfer.
- Recognized with SPOT Award for exceptional operational performance and client support excellence during high-volume program launches.
- Delivered QBRs and executive business reviews surfacing engagement metrics and ROI insights, supporting contract renewals and upsell opportunities for enterprise retail clients.

PROFESSIONAL EXPERIENCE

Configuration Manager I (PSV)
Aug 2023 – Present

Capillary Technologies India Pvt. Ltd. *Bangalore, India*

- Lead end-to-end configuration and deployment of enterprise loyalty campaigns across CMS and campaign orchestration platforms for major retail and consumer brands.
- Manage full UAT cycles for mobile and web loyalty features, coordinating with QA, product, and engineering teams to ensure zero-defect production releases.
- Validate REST APIs, microservices, and configuration changes pre-deployment using Postman and cURL, reducing production incidents and rollback rates.
- Author detailed Root Cause Analysis (RCA) documentation and technical incident reports for cross-functional stakeholders including product, engineering, and client success teams.
- Implement Generative AI workflows (ChatGPT, Claude) for automated test case generation, technical documentation, and troubleshooting acceleration.

Delivery Manager – Customer Success
Apr 2022 – Aug 2023

Capillary Technologies India Pvt. Ltd. *Bangalore, India*

- Managed portfolio of 5+ enterprise client relationships, ensuring on-time delivery of loyalty platform solutions and feature enhancements aligned to contractual SLAs.
- Designed and configured promotional campaigns aligned with client brand strategies, driving measurable improvements in program enrollment and engagement KPIs.
- Led enterprise client onboarding and platform configuration, reducing time-to-launch by standardizing configuration templates and runbooks.
- Conducted regular performance reviews and QBRs to surface engagement data, improve program adoption, and strengthen client retention.

Associate Manager – Key Accounts
Apr 2012 – Sep 2020

Capillary Technologies India Pvt. Ltd. *Bangalore, India*

- Configured and maintained loyalty programs for 15+ enterprise retail brands, managing large-scale campaign execution across points, tiers, and rewards modules.
- Led UAT cycles and coordinated client training sessions to enable successful program launches and feature rollouts with minimal post-launch defects.
- Delivered executive business reviews highlighting engagement metrics, program ROI, and strategic improvement recommendations to C-level stakeholders.

Operations Executive – Support Team
Apr 2010 – Mar 2012

Capillary Technologies India Pvt. Ltd. *Bangalore, India*

- Configured loyalty programs for marquee retail brands including Raymond and Siyaram, ensuring accurate rule setup, rewards logic, and campaign configuration.
- Provided L1/L2 technical support with consistent SLA compliance and high client satisfaction scores.
- Received SPOT Award for outstanding operational support and client service excellence.

Manager – Customer Success
Dec 2021 – Mar 2022

Spurtree Technologies Pvt. Ltd. *Bangalore, India*

- Partnered with enterprise clients to improve loyalty program adoption, engagement metrics, and platform utilization.
- Translated customer requirements and pain points into actionable platform configuration enhancements, coordinating with product and engineering teams.

Manager – Customer Success
Oct 2020 – Nov 2021

Altai Solution Pvt. Ltd. *Bangalore, India*

- Managed enterprise customer relationships across loyalty and CRM implementations, ensuring successful platform delivery and go-live milestones.
- Coordinated with engineering teams to diagnose and resolve technical issues, minimizing client-impacting downtime and escalations.
